MESSAGE:

Dear Ms. Loffredo,

late (4-6 PM) Thursday or Friday

Jack Victory suggested that I call to arrange an appointment on behalf of our client, Mr. David Wittig, the CEO of Western Resources/Westar Energy.

Westar is a Topeka-based electric power company whose executive management team has been very supportive of Mr. DeLay's hard work to expand real competition in electricity markets.

In fact, two of our officers recently had the opportunity to attend a get-together and meeting that Mr. DeLay held at the Homestead in West Virginia. Our people thought it was terrific, and enjoyed their time with the Majority Whip.

We hope that Mr. DeLay will be able to see David Wittig, our CEO, as soon as practicable after the July 4 recess.

Thank you so much.
